Faculty Position – Department of Chemistry, Colorado State University

The Department of Chemistry, Colorado State University, located in Fort Collins, CO, seeks to hire a tenure-track faculty member with research interests in organic chemistry, broadly defined. While exceptional candidates from all areas of organic chemistry are encouraged to apply, candidates whose research interests are in the area of organic synthesis are of particular interest. We aim to fill this position at the Assistant Professor level. CSU is a land-grant institution with a strong commitment to research that impacts society and addresses global problems, while maintaining an emphasis on scholarly excellence. Twenty-eight research active faculty representing all major areas of chemistry comprise the Chemistry Department at CSU.

Many opportunities for collaboration exist with the Chemistry faculty, across the College of Natural Sciences and the University.

Information on the city of Fort Collins can be found at http://www.fcgov.com/

Responsibilities
The appointed individual is expected to: 1) develop and maintain an internationally-recognized research program within the framework of her/his individual areas of interest and expertise and consistent with the goals and objectives of a university environment; 2) actively participate in teaching undergraduate and graduate courses as assigned by the department chair; 3) participate in department and university administrative governance and advising functions as deemed appropriate by the department chair; 4) continue development of her/his own scholarly activities and professional capabilities; 5) demonstrate ability to advance the Department's commitment to diversity and multiculturalism, and 6) adhere to the responsibilities of the general faculty as delineated by the University's Academic Faculty and Administrative Professional Manual http://www.facultycouncil.colostate.edu/files/manual/table.html.

Qualifications
Applicants must hold a Ph.D. or equivalent degree and be capable of truly outstanding teaching, research, and scholarship. Postdoctoral experience is highly desirable.

Starting Date:
August 2014 or as appropriate.

Deadline:
Applications completed by October 15, 2013 will receive full consideration but applications will be accepted until the position is filled. Application materials of semifinal candidates, including letters of references, will be made available for review by the entire faculty of the Department of Chemistry.

Application Procedures
Complete applications will include a detailed CV, descriptions of research plans and teaching interests, and the names of at least three references. Applications should be submitted online at: http://cns.natsci.colostate.edu/employment/ChemOrganic/. Questions should be directed to Chair, Faculty Search Committee, chemsrch@lamar.colostate.edu

Colorado State University does not discriminate on the basis of race, age, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, or gender identity or expression. Colorado State University is an equal opportunity/equal access/affirmative action employer fully committed to achieving a diverse workforce and complies with all Federal and Colorado State laws, regulations, and executive orders regarding non-discrimination and affirmative action.
